

Let's Upaste!! 2026 Sapporo Winter Arts Tour

Upaste — derived from “upas”, which means “snow” in Ainu language — implies “running together into the future while recognizing one another.” It was created as the sub-theme for SIAF2024 and became this project's motto.

This year, a unique program will be held at 26 locations spanning from the heart of the city and beyond. Now then, let's venture farther than before!

※ “Let's Upaste!! 2026” called for cooperation from SIAF2024 venues, open-call and collaboration project organizers, as well as graduation exhibitions held at universities and vocational schools in the city during the event period.
